

# Action Printing

## Adobe InDesign CS4 Exporting PDFs

### Load our Presets

I have attached a file of our PDF settings. Place on your hard drive.

Under **File** go to **Adobe PDF Presets > Define**

Hit the **Load** button and navigate to our “AP Settings” file - select and click **DONE**

This will add APSettings to your list of Presets

Under **File** go to **Export > Format: Adobe PDF** - give name & destination and hit **Save**

**Adobe PDF Preset:** choose **APSettings** - click **Export**
